

CCB COVID-19 Student/Parent Agreement

We need everyone's help in creating the safest possible environment at CCB. We are asking parents to please volunteer to help with check in and out as well as bathroom monitoring. Please email us at charmcityballet@gmail.com if you're willing to help.

I want to do my part to help CCB keep myself, my child(ren), other dancers, the instructors, other families, and everyone else at the studios as safe as possible during the Covid-19 pandemic and beyond it. I have read, understood and agree to follow the following policies and procedures.

I understand and agree that:

- I will drop my dancer off and pick him/her up at the designated entrance to the studio. (Detailed info to come.) If I drive myself to the studio, I will follow all entry/exit procedures.
- Our lobby will remain closed. For younger dancers, please let us know ahead of time if you must accompany your child into the building. Only one parent or nonparticipating individual will be allowed to enter the building at the main entrance for drop off of younger children.
- All people, regardless of age, are required to wear a mask when in the facility.
- I will arrive, or I will have my dancer arrive, dressed and ready for class as dressing rooms will be closed.
- I am aware that the water dispenser will be closed.
- I am aware that I/my child must wear a mask at all times at CCB. I also understand that outdoor breaks (without masks required) will be given when necessary and that instructors will plan classes to accommodate a slow build up to more aerobic activity over time, so dancers will have the opportunity to slowly get used to dancing in a mask and build up their endurance.
- I will support the social distancing standard of at least 6' outside and inside the facility (and educate my child on this protocol).
- Class times have been adjusted to ensure time for the dancers to get in and out of the studio without a crowd, to provide time to wipe down the equipment between each class and for teachers to thoroughly wash their hands.
- I/my dancer will have regular opportunities to use their hand sanitizer, starting with prior to entering the building.
- I/my dancer will use the restroom and wash their hands thoroughly before leaving home and while at the studio as needed.
- I/my dancer will bring a clearly marked dance bag to the studio each day with all recommended items included. Items include: hand sanitizer, yoga mat, extra mask, tissues, water bottle, dance shoes and other class items.
- I will, or I will have my dancer, wash hands and feet thoroughly upon arriving back home and my, or her/his, bag and items in the bag will be cleaned upon arriving home and again before I, or she/he, brings it back into the studio.
- I agree to stay home, or keep my dancer home, if he/she is not feeling well or anyone in the household has any Covid-19 symptoms such as coughing, has a temperature over 100 degrees, fever, chills, body aches, sore throat.

- I understand and agree that if I, or my child, tests positive or is knowingly exposed to Covid-19, I/my child must perform a 2-week self-quarantine and I/my child will not be allowed to take in-studio classes during this time. Students may take classes virtually during this time period.
- I understand that at any point, due to a mandate or otherwise, CCB has the right to switch in-studio classes to virtual classes via Zoom. In this situation, tuition will not be refunded in full, but tuition for the virtual period will be discounted 25%
- I understand and agree that these procedures will change and evolve over time and that I will follow any new standards required by the State of Maryland and/or CCB.
- I understand that the instructors and everyone at the studio will make a strong effort to maintain social distancing but that there will be times when incidental contact and less than prescribed physical distancing will occur.
- I further understand that I am voluntarily choosing, or allowing my child, to participate in programs and activities offered by CCB knowing that even with increased sanitation and enhanced hygiene protocol, it is impossible to provide a completely sterile environment so the risk of Covid-19 exposure and other viruses may exist. I accept that risk.
